Research associate profile: Dr Arnulf Kanzler

01/08/2023

### Research associate profile

Dr Kanzler provides Eucalypt tree breeding support to the ICFR. He is a well-known expert locally and internationally in tree improvement of eucalypt species and hybrids in South Africa. His interests lie in Tree Breeding, wood properties and environmental science. He has extensive experience in breeding trees for fast growing plantations in the Southern Hemisphere. This includes species adapted to the tropics (Indonesia), as well as sub-tropical and temperate species in Southern Africa.
